- Monday, December 8, 2025, at 6:00 p.m., Regular Lyman Town Council Meeting, at the Lyman Town Hall

20. Adjournment

DRAFT MINUTES
Lyman Town Council Meeting
Monday, October 13, 2025, at 6:00 p.m.
Lyman Town Hall, 81 Groce Road, Lyman, S.C.

CALL TO ORDER

The meeting of the Lyman Town Council was called to order at 6:02 p.m. by Mayor Greer.

FOIA

Notice of the meeting with an Agenda was publicly posted, published, and forwarded to the media no less than 24 hours prior to adjournment.

Present:

Glenn Greer, II
Jack Bellaire
Adam Crip
Rick Hellams
Rebecca Martin
Phil McIntyre
David Petty

Reading and Approval of Minutes from the Regular Meeting on September 8, 2025

Rebecca Martin made a motion to approve the Minutes. Adam Crisp seconded the motion. David Petty asked for confirmation that the statements from the residents who spoke before the Council at that meeting would be included as part of the Minutes. The Town Clerk assured him that they would be. A vote was taken, and all were in favor. The Minutes were approved.

Updates to Council:

A. Stormwater Drainage Pipes Investigation

Noel Blackwell, the Town Administrator, provided an update on the stormwater drainage investigation. She stated that the Town is working to determine whether any existing entity has ownership of the stormwater lines but has found no record of a dedication to the Town or any transfer of easement rights. She noted that some of the lines appear to run beneath houses and that a second stormwater line in the area predates the one that collapsed. Mrs. Blackwell also reported that there is no evidence indicating Town ownership of that line.

B. MS4 Town of Lyman/County of Spartanburg

Noel Blackwell, the Town Administrator, made a statement regarding the MS4 Agreement. She explained what the MS4 Agreement is and what it is not, and provided clarification on who is responsible for repairing stormwater pipes and what occurs in the event of a failure. Ms. Blackwell stated that the Town is actively working with engineers and attorneys to determine ownership in areas where it is unclear, to ensure that the appropriate party — not the taxpayers — is responsible for repair costs.

C. Town Update

There were no updates provided by the Council.

Request to Appear Before Council

A. Laura Duncan, 151 W. Pyrenees Drive, Lyman, SC

Ms. Duncan requested to speak with the Council regarding the need for street lighting in the Lyman Farms at Shiloh neighborhood.

Ms. Duncan addressed Council regarding her neighborhood's homeowners' association (HOA), which dissolved in March 2025. She explained that residents have questions about their subdivision, noting that there is not enough interest to form a new HOA. The neighborhood no longer has streetlights and requested the Town's assistance in obtaining lighting, or at least a light at the entrance, as children are walking in the dark to the bus stop. Residents are uncertain who owns the common areas and the detention pond, both of which require upkeep. One resident has been paying property taxes on the common areas to prevent them from becoming delinquent. The residents are seeking any assistance or guidance the Town can provide regarding maintenance responsibilities and potential solutions.

B. Dillon Lindsay, 16 Upland Street, Lyman, SC

Mr. Lindsay requested to speak with the Council to describe and request the conveyances of the MS4 owned and operated by the Town of Lyman.

Mr. Lindsay requested the MS4 conveyances owned by the Town of Lyman.

C. Andrew Karas, 32 Crescent Street, Lyman, SC

Mr. Karas requested addressing the Town Council about "Council." Additionally, he is seeking clarification from the Council concerning the discussions from the September 8, 2025, Council meeting and previous meetings.

Mr. Karas addressed Council regarding the previous meeting and the street sweeper proposal presented by Jack Bellaire. He expressed concern that only one bid was presented to Council and felt that additional bids, including those from companies providing street sweeping services, should have been obtained. Mr. Karas also referenced a prior meeting where Council Member Rebecca Martin had raised the issue of street cleaning and was informed that the Town did not own or maintain the streets. He further expressed concern about the source of funding for a street sweeper, given the Town's existing needs related to roads, infrastructure, and zoning. Mr. Karas feels there is division among the Council. He requested that his statement be made part of the Minutes.

Treasurer's Report was given by Donna Perry, Staff Accountant

Rebecca Martin made a motion to approve the Treasurer's Report. Phil McIntyre seconded the motion, and all were in favor.

Department Reports

Police Department

Given by Chief Jay Hayes

Fire Department

Given by Steve Carpenter

Public Works/Wastewater & Pre-Treatment

Given by Scott Miller

Announcement of Yard of the Month for October – North of Highway 29

• ***Council Members Jack Bellaire and Adam Crisp***

Adam Crisp announced that Mr. and Mrs. David McAlister, of 340 Laura Faye Lane, Lyman, SC have been selected as the Yard of the Month recipients for October. The Yard of the Month sign will be placed at their residence.

Announcement of Business of the Month for October

• ***Mayor Glenn Greer***

Mayor Greer announced that Jill Southern, owner of Black Sheep Barbershop of Lyman, located at 40 Groce Road, Suite A, Lyman, SC, was selected as the Business of the Month for October. Mayor Greer presented Mrs. Southern with a Certificate of Recognition, and the Business of the Month sign will be placed at her business.

Old Business

Discussion and possible action pertaining to the purchase of a Street Sweeper Truck or RFP for Street Sweeper Services for Main Town Roads (Council Member Bellaire).

After discussion, Jack Bellaire made a motion to table this item. Adam Crisp seconded the motion, and all were in favor.

Discussion and possible action pertaining to Spring Community Clean Up Day (Establishment of Committee (Council members only or members of public on committee?), procedure for obtaining volunteers, procedure for determination of location of efforts, facilitation of cleanup day process) (Council Member Bellaire).

Adam Crisp made a motion to approve the formation of a volunteer Community Care Committee. Rick Hellams seconded the motion. After a lengthy discussion, Council voted, all were in favor, and the motion carried.

Jack Bellaire made a motion to have two (2) Council Members serve on the Community Care Committee, along with three (3) community members. It was discussed that the community members would apply to serve on the Committee through an application process like that of the Planning and Zoning Boards. Rebecca Martin seconded the motion, and all were in favor.

Discussion and possible action for making Vernon Street in the Town of Lyman a one-way street, allowing only entrance from Wade Hampton Boulevard, no entrance from Holly Springs Road (Council Member Bellaire).

Council members discussed this matter at length and sought the advice of Police Chief Jay Hayes regarding the possibility of making Vernon Street a one-way road. Chief Hayes and Lieutenant Southern both stated that they believed designating Vernon Street as a right-turn-only street during specific hours of the day would help reduce the number of accidents.

Jack Bellaire made a motion to designate Vernon Street onto Wade Hampton Boulevard as a right-turn-only street seven (7) days a week, from 7:00–9:00 a.m. and 4:00–6:00 p.m. Adam Crisp seconded the motion, and all were in favor.

New Business

Resolution of the Town Council of the Town of Lyman, South Carolina, Expressing Its Intent to Rename Church Road to Charlie Kirk Way (or such variation as Council may deem appropriate) and Referring the Matter to the Town of Lyman Planning Commission for Review and Certification (Mayor Greer and Council Member Crisp)

Mayor Greer made a motion to accept a Resolution renaming Church Road to Charlie Kirk Way and to refer the matter to the Town of Lyman Planning Commission for review and certification. Adam Crisp seconded the motion.

After a lengthy discussion among Council Members regarding the reasons for and against renaming the road, a vote was taken.

Mayor Greer and Council Members Jack Bellaire and Adam Crisp voted in favor, while Council Members Rick Hellams, Phil McIntyre, Rebecca Martin, and David Petty voted against. The motion failed by a vote of 4–3.

Resolution of the Town Council of the Town of Lyman, South Carolina, Expressing Its Intent to Rename Church Street to Rita Allison Avenue (or such variation as Council may deem appropriate) and Referring the Matter to the Town of Lyman Planning Commission for Review and Certification (Mayor Greer and Council Member Crisp)

Council agreed that Rita Allison deserved recognition beyond having a street named after her or a small portion of one. David Petty suggested that Council also consider renaming The Park of Lyman in her honor. All Council members agreed with the suggestions.

Adam Crisp made a motion to rename Church Road to Rita Allison Avenue and rename The Park of Lyman to Rita Allison Park. Mayor Greer seconded the motion, and all were in favor.

A Resolution Approving and Ratifying the Execution of a First Amendment to Voluntary Cleanup Contract 22-7614-NRP

Mayor Greer made a motion to approve the Resolution. Phil McIntyre seconded the motion, and all were in favor.

Executive Session

Mayor Greer made a motion at 7:12 p.m. to go into Executive Session for the purposes of:

- Discussion of contract negotiations.
- Discussion and receipt of legal advice covered by attorney-client privilege.
- Discussion and receipt of legal advice covered by attorney-client privilege.
- Discussion and receipt of legal advice covered by attorney-client privilege.
- Discussion and receipt of legal advice covered by attorney-client privilege.

Adam Crisp seconded the motion, and all were in favor.

Mayor Greer made a motion to come out of Executive Session at 8:38 p.m. Phil McIntyre seconded the motion, and all were in favor.

No actions or votes were taken during the Executive Session.

Discussion pertaining to “Requests to Appear before Council” as detailed in items 9 “A”, “B”, and “C” of this Agenda.

Mayor Greer directed Town Staff to contact Laura Duncan regarding the request she presented to Council at this meeting.

David Petty inquired whether any of the requests presented to Council were being followed up on. Mayor Greer informed the Council that they may instruct Town Staff to reach out to residents who appear before the Council for any necessary follow-up.

Adjournment

Adam Crisp made a motion to adjourn at 8:43 p.m. Phil McIntyre seconded the motion, and all were in favor.

DRAFT

Town of Lyman
Town Council meeting
October 13, 2025
Supplemental materials from Laura Duncan

1. Copy of Remarks
2. Screenshots from NextDoor about HOA 2018
3. Screenshots from NextDoor about HOA 2019
4. Map of Lyman Farms at Shiloh
5. Spartanburg County OneMap of Lyman Farms at Shiloh showing Classic Country Homes, LLC listed as owner of detention pond – dated October 13, 2025
6. Charles L. Satterfield's obituary
7. Articles of dissolution for Country Classic Homes, LLC

Good evening. My name is Laura Duncan, and I live at 151 West Pyrenees Drive in the Lyman Farms at Shiloh subdivision with my husband and three children. I'm here to ask for some advice regarding our lack of a Homeowners Association, which was officially dissolved in March of this year.

When we moved here in 2017, the HOA was already a hot mess. I have submitted materials detailing this debacle for your review. We have not had a functional HOA for 7 years. This has been causing a lot of issues, and we do not have the community support to start a new HOA. As it stands, about 20 of the 107 houses in our neighborhood are actively trying to keep up with and improve our neighborhood.

The first pressing issue is street lights. Ours have been dark for the past year. The previous HOA had them turned off after having collected no dues for 5 years, and we did not have a new HOA to take over the payments. Our children are walking in the dark, on streets with no sidewalks, each morning to get to the bus stop. There have been several times this past winter where children were almost hit by cars due to lack of visibility. We need these lights back on. What do you suggest we do?

The second issue is ownership of the common areas in our neighborhood. There are two lots that flank the entrance and there is a detention pond. The county tax office still has the now defunct HOA as the owner, and we've had tax delinquent notices posted several times. Since we have no HOA, one of our neighbors has been paying the taxes although we have no idea who owns these properties or who is responsible for maintenance.

I am concerned that an accident is going to happen on the roads or in the detention pond. We are trying to keep our neighborhood safe and a point of pride for the Town of Lyman. We've tried to keep up, but with no legal standing, no legal entity, and unknown legal liability we are all in the dark.

Can you help us find a way to have our street lights turned on without forming an HOA? If not, could the town have a light placed on the utility pole across from the entrance? This would allow more visibility, at least where the children stand and wait for the bus.

As to land ownership, how do we find out who owns and would be responsible for the detention pond? We would also like to know who owns the properties at the front entrance, but the more pressing issue is the pond. If the owner no longer exists, is it considered abandoned? Would it be possible for the county or town to take over maintenance of the pond to make sure it is in compliance with current town and county ordinances? We welcome any information or assistance you can provide.

All of us here tonight love our town, our neighborhood and our neighbors. We could really use the town's help to find a path forward.

Thank you so much for your time.

Laura Duncan

HOA Letter and Payment. Has anyone ever received anything from our HOA other than the one letter asking for a check each year? Aren't we supposed to have meetings and receive information? I also asked them to produce a document showing where all the money goes and I have never rec... see more

4 24

Ashley Threlkeld · Lyman Farms at Shiloh
we've been here for 5 years now, and never know where the money goes other than the street lights they put up halfway through year 2. we've written charles satterfield telling him we would like the HOA handed over to the neighborhood and nothing happens. we did get a reply saying they have proof of the funds and where it is going and such, basically saying it is being saved in a bank account for when the HOA is in the neighborhoods hands. it doesnt make sense and theres no way with as many houses as we have around us that there is just money beign stored away.. we have neighbors cutting the entrance most of the time and they NEVER come up with a reason as to why they never upkeep anything. I would at least expect the front to be as nice as the surrounding subdivisions but unfortunately thats not the case. charles satterfield has dropped the ball.

Chris Visage Author · Lyman Farms at Shiloh
I wouldn't mind paying the fee if it went to something and they could prove it, but I refuse to pay and hardly be able to even get a response. Doesn't seem legal at all. Though he is threatening to take legal action on those that don't pay this year.

Like Reply Share

Ashley Threlkeld · Lyman Farms at Shiloh
hes always threatened the legal action not sure if its an empty threat or not.. we were the same way.. when it was just the first ten or so houses we all tried not paying but i think a few people paid anyways.

Linda Z. · Lyman Farms at Shiloh
They have tried to hand off the HOA to the neighborhood before, however, it was discovered that there were taxes that hadn't been paid and no one would provide a written accounting of where the HOA fees have been going thus far. In light of the back taxes due and refusals to provide a detailed accounting of funds no one here wanted to take on the HOA until those matters were resolved.

Like Reply Share

Tory Shinsberger · Lyman Farms at Shiloh
Yeah until they give us a pool we won't pay either.

Like Reply Share

Stephen Stone · Lyman Farms at Shiloh
They wouldn't even take care of our light for an entire year. Autumn has to take care of it herself after a year of asking them to do something. The HOA is a joke at best and they are crooks at worst. No way anyone should pay a dime to them.

Ashley Threlkeld · Lyman Farms at Shiloh
Yes!! I saw her post about calling broad river!! That's pathetic

Like Reply Share

Catherine Aho · Lyman Farms at Shiloh
I have requested proof for several years of where that money goes, and never once have received a phone call back, email back, nothing. They don't even have my name right on the HOA "bill". Until they provide proof that my money isn't supporting his business ("Classic Country Homes", whom we are instructed on the bill to address checks to... suspicious!), I haven't paid, and I won't.

When the HOA is transferred to us, represented by us, and accountable TO us, I will be more than happy to pay what I owe for HOA fees to whomever has taken it over with our interests in mind—but not a moment before then. That's just my feelings/opinion on the matter.

Ashley Threlkeld By Lyman Farms at Shiloh
not sending payment either. I dont see the need to, we are always the one reaching out to them.. it would be nice for the other way around seeing as he has gotten so many complaints. I'd also like to see how it is so high, \$10,000 a year for what exactly? to have a "landscaping" company come out every odd month? no thanks

Corey Scheffers By Lyman Farms at Shiloh
Anyone get a bill for \$350 this year? Should I be worried about not paying again? Just curious if anyone has been in contact with the company at all. There's a lot of houses now and \$175 for pretty much nothing seems ridiculous.
1 0 1

Chris Visage Author By Lyman Farms at Shiloh
We did too. They never respond to us or send any info. No way we are paying

Lyman Farms at Shiloh HOA Status. We all now have received HOA bills for 2020. Mid summer this year there was talk on Mr Satterfield's part that he would take steps to turn the HOA over to the community in 2019. Now more talk of doing this in 2020, but nothing formal or a plan. For his part, this is a standard process that developers do all the time. Likely could be completed in a matter of a few weeks with an attorney. We are over due.

During the summer, a few of us have been researching our community and the HOA process and communicating with Mr Satterfield. As a summary, I have put what we have learned in the attached PDF document to keep this note short and more to the point.

As of this point in time, the transfer of HOA to the community has not happened. In addition, I believe he has not met the requirements of the covenant to send us an annual budget for review and voting from my reading of the covenant. This should have been done for the years 2017-2020.

We have two choices. First, proceed as is, paying HOA dues and hoping sometime Mr Satterfield will turn the HOA over. Living with issues that have been a concern to many in the community.

Second, I still recommend paying HOA dues to avoid liens. However, there are terms in the covenant that might allow the community to take some legal action to speed the process along as well as resolve some current issues. This will require an attorney to review, process, and implement a course of action. To do this, a funding source or some "pro-bono" work will be required. There is at least one issue that does require legal review (see document, retaining pond) in either case.

Unfortunately, Linda and I are dealing with an unexpected medical diagnosis such that we can't continue helping in this effort.

We hope that someone else can take the role of moving forward and the attached document will be useful. If there are any questions about the attached document, please feel free to contact me.

Link to PDF of the covenant, summary document is attached:

Charles Satterfield Obituary
Charles L. Satterfield

Greer - Charles L. Satterfield, age 85, passed away Friday August 28, 2020 at his home.

Born in Banks County, GA, he was a son of the late Gordon and Alae Savage Satterfield and the widower of Annie Lou Godfrey Satterfield. He was a member of Pelham Church of God of Prophecy, owner and operator of CS Construction for the last 45 years, a US Army Veteran and loved tinkering around his barn and could repair anything.

Survivors include one son, Leonard Satterfield; two granddaughters, Hailey and Hannah Satterfield; one grandson, Chris Moore all of Greer; two sisters, Katherine S. Pierce, Shirley (Bill) Kelley of Greer; Roy Walden of Woodruff and many nieces and nephews. He was predeceased by a son, Danny Satterfield; daughter Sharon Moore, brother Chorn Satterfield and sisters, Eulline Henson and Gussie Walden.

Graveside Services will be held 11:00 AM Tuesday September 1, 2020 in GraceLand East Memorial Park Cemetery. Memorials may be made to WREX Hospice - 955 W. Wade Hampton Blvd., Greer, SC 29650 or to the charity of ones choice. www.foresthillsfuneralhome.net

Andrew Karas
32 Crescent Street
Lyman, SC 29365

October 13 , 2025
Town of Lyman
Mayor and Council
81 Groce Rd.
Lyman, SC 29365

Good Evening,

My name is Andy Karas, and I live at 32 Crescent Street in Lyman, SC 29365.

Tonight, I wanted to address council regarding a discussion at last month's council meeting regarding the comments made by councilman, Jack Bellaire. Mr. Bellaire talked about a discussion he had with Scott Miller, Director of Lyman's Public Works Department, and Noelle Blackwell, Town Administrator, about the town possibly purchasing a street sweeper. The idea was met with acceptance by Mayor Greer, and it was stated this would be looked into.

On tonight's agenda under "Old Business 11A" appears discussion and possible action regarding the purchase of a Street Sweeper. This agenda item should not be listed as "Old Business" but as "New Business" on tonight's agenda. This item appeared on last month's agenda as "Town Updates/Any Concerns" where each council member brought up ideas or concerns, they had. It has never been an actual agenda item where Council could have any open discussions or the ability to request more bids or studies to determine if this was indeed something that would benefit the town.

In tonight's council package there is only one bid for a street sweeper. The cost is roughly \$247,517.00. You would think with the purchase of equipment which was so expensive there would be additional bids for the equipment. You might even think there would be bids from companies who do street sweeping to show the cost of an outside company doing street cleaning a few times a year vs the town purchasing and maintaining the expensive street sweeper. Yet Council is being asked to make a decision based off of one bid and no other information.

Ironically, Councilwoman, Rebecca Martin brought up this same issue before council at a previous town council meeting. She was told the town of Lyman did not own any of the streets, they were not responsible for the upkeep of any of the streets and did not want to accept liability for any of the streets.

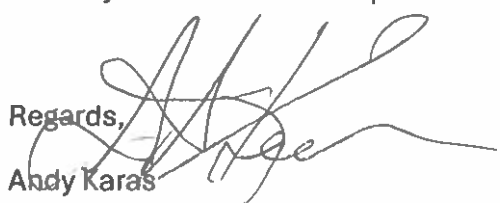

Those of us that come to council meetings regularly know how this will play out tonight. But a bigger question we should all be asking was the purchase of this equipment ever put into the 2025/2026 budget as well as where are the funds coming from for this budgeted or non-budgeted purchase?

Besides spending funds like this with no regard for other pressing issues in our town such as crumbling roads, infrastructure and zoning there is also a divide on the Council. This divide is obvious if you are watching Council meetings in person or listening to them on tape. You can see or hear how any comments or ideas will be received depending upon which council member presents them. The street sweeper is only one example to show this happens all the time.

My hope is that this is the last time I have to address this board as it sits tonight. The voters have the ability to make their voices heard on November 4th. We, the citizens of Lyman, deserve better leadership than we have received in the past four years.

I ask my letter be added as part of the minutes to tonight's council meeting.

Regards,

Andy Karas
32 Crescent St.
Lyman, SC 29365

TOWN OF LYMAN, SOUTH CAROLINA
RESOLUTION NO. 11102025 7

**A RESOLUTION HONORING MAYOR GLENN GREER, II FOR HIS DEDICATED SERVICE TO
THE TOWN OF LYMAN AND ITS CITIZENS**

WHEREAS, Mayor Glenn Greer II has faithfully and honorably served the Town of Lyman for a total of nine years, including four years as Mayor and five years as a member of Town Council; and

WHEREAS, during his tenure, Mayor Greer provided visionary and steady leadership that guided the Town through a period of exceptional progress, growth, and resilience; and

WHEREAS, under his leadership, the Town of Lyman was recognized as the 4th safest city in the State of South Carolina, achieved a Class 1 ISO rating, and maintained the second lowest municipal tax rate in Spartanburg County while keeping one of the lowest debt ratios in the entire State; and

WHEREAS, during his administration, the Town experienced unprecedented economic growth, welcoming more than \$750,000,000 in new business capital investment, including the location of the Walmart Distribution Center within Town limits – bringing significant economic opportunity, jobs, and revenue to the community; and

WHEREAS, Mayor Greer played a direct and instrumental role in the Town’s successful acquisition of the former Lyman Mill property, leading negotiations to secure the long-neglected site for redevelopment into a vibrant centerpiece of the community, preserving Lyman’s history while advancing its future; and

WHEREAS, Mayor Greer has been a tireless advocate for the employees and residents of the Town of Lyman, consistently championing fair treatment, professional development, and recognition of Town staff; and

WHEREAS, under his guidance, the Town maintained a record of independent financial audits with zero findings, demonstrating responsible governance, transparency, and fiscal integrity; and

WHEREAS, during times of challenge and adversity, including the aftermath of Hurricane Helene, Mayor Greer worked closely with Town staff to ensure effective recovery operations and successful FEMA reimbursement for the Town’s cleanup and repair efforts; and

WHEREAS, through his integrity, commitment, and steady leadership, Mayor Greer II has earned the respect, trust, and gratitude of Town employees, fellow Council Members, and the citizens of Lyman.

NOW, THEREFORE, BE IT RESOLVED by the Mayor and Council of the Town of Lyman, South Carolina, in Council duly assembled, that Glenn Greer II is hereby honored and commended for his distinguished service and dedicated leadership to the Town of Lyman and its citizens, and that this Resolution shall be entered into the permanent records of the Town as a lasting expression of appreciation and gratitude.

ADOPTED this 10th day of November, 2025, by the Council of the Town of Lyman, South Carolina.

the 1990s, the number of people who have been employed in the public sector has increased in all countries.

There are a number of reasons for the increase in public sector employment. One of the main reasons is the increasing demand for public services, such as health care, education, and social security. Another reason is the increasing need for public infrastructure, such as roads, bridges, and public housing.

The increase in public sector employment has led to a number of challenges for governments. One of the main challenges is the increasing cost of public services. Another challenge is the increasing need for public infrastructure.

There are a number of ways in which governments can address these challenges. One way is to increase taxes. Another way is to reduce public sector employment.

The increase in public sector employment is a complex issue that requires a number of different solutions. Governments need to find ways to increase the efficiency of public services and to reduce the cost of public infrastructure.

the 1990s, the number of people in the world who are undernourished has increased from 600 million to 800 million (FAO 2001).

There are a number of reasons for this increase. One of the main reasons is the rapid population growth in the developing countries. The world population is expected to reach 8 billion by the year 2025 (FAO 2001). This increase in population will put a tremendous pressure on the world's food resources.

Another reason for the increase in undernourishment is the rapid increase in the number of people who are living in poverty. In 1990, 1.2 billion people were living on less than \$1 per day. By the year 2000, this number had increased to 1.5 billion (FAO 2001).

There are a number of reasons for this increase in poverty. One of the main reasons is the rapid increase in the number of people who are living in the developing countries. Financial Reports
October 2025**

Town of Lyman
Financial Commentary
October 2025

As of October 31, 2025, 33.33% of the budget year has passed with 66.67% of the budget year remaining.

The budget reflected in the attached reports is the FY 25-26 budget approved by Council on June 9, 2025.

General Fund revenues are 14.06% of the budget. This is typical for this time of the year as most of the General Fund revenue is received in the last 6 months of the fiscal year. General Fund expenditures are 27.58% of the budget.

Hospitality Fund revenues are 26.22% of the budget. Last month's report showed Hospitality Fund revenue at 23.29% of budget. This looks as if the Hospitality Fund received very little revenue this month. It in fact received revenue of \$44,200 during the month. The issue is that a year-end accrual was made this month to push back FY 24/25 revenue that was received in FY 25/26. This was for June hospitality tax received in July and August. Expenditures are 48.52% of the budget. This is due to making the annual budgeted transfer of \$65,000 from the Hospitality Fund to the General Fund in July and paying a large deposit for the installation of the Christmas lights.

Wastewater Fund revenues are 43.11% of budget and expenditures are 27.72% of budget. Revenues are ahead of budget primarily due to Tap Fees revenue already exceeding budget for the year.

the 1990s, the number of people with a diagnosis of schizophrenia has increased in many countries (1).

There is a growing awareness of the need to improve the quality of life of people with schizophrenia. This has led to a focus on the development of psychosocial interventions, which aim to help people with schizophrenia to live more independently and to participate more fully in society (2).

One of the most common psychosocial interventions is cognitive behavioural therapy (CBT). CBT is a form of therapy that helps people to change their thoughts and feelings, and to develop new ways of coping with their problems (3).

CBT has been shown to be effective in helping people with schizophrenia to manage their symptoms, and to improve their quality of life (4). However, there is still a need to develop more effective CBT interventions for people with schizophrenia (5).

One of the reasons for this is that many people with schizophrenia do not attend CBT, or do not benefit from it (6). This is often because they do not understand what CBT is, or do not see the value of it (7).

Therefore, it is important to develop CBT interventions that are more understandable and more appealing to people with schizophrenia (8). This paper describes the development of such an intervention.

The intervention was developed using a participatory approach, which involves people with schizophrenia in the development of the intervention (9). This approach has been shown to be more effective than a traditional approach, in which the intervention is developed by professionals without the input of people with schizophrenia (10).

The intervention was developed in a community mental health centre, where people with schizophrenia receive their care. The centre is run by a team of professionals, including psychiatrists, nurses, and social workers (11).

The intervention was developed over a period of 12 months. It was developed in three stages: (1) identifying the needs of people with schizophrenia, (2) developing the intervention, and (3) evaluating the intervention (12).

In the first stage, the needs of people with schizophrenia were identified through a series of focus group discussions. These discussions were held with 12 people with schizophrenia, who were recruited from the community mental health centre (13).

The focus group discussions identified a number of key issues that people with schizophrenia were concerned about. These issues included: (1) understanding what CBT is, (2) seeing the value of CBT, and (3) being able to access CBT (14).

In the second stage, the intervention was developed. The intervention was developed using a series of workshops, which were held with people with schizophrenia and professionals (15). The workshops were held over a period of 6 weeks.

The workshops identified a number of key issues that people with schizophrenia were concerned about. These issues included: (1) understanding what CBT is, (2) seeing the value of CBT, and (3) being able to access CBT (16).

The intervention was developed as a series of 10 sessions. Each session was 45 minutes long, and was held once a week. The sessions were held in a community room at the community mental health centre (17).

The intervention was developed using a series of activities, which were designed to help people with schizophrenia to understand what CBT is, and to see the value of CBT (18). The activities included: (1) role playing, (2) group discussions, and (3) self-reflection (19).

The intervention was developed using a series of materials, which were designed to help people with schizophrenia to understand what CBT is, and to see the value of CBT (20). The materials included: (1) a booklet, (2) a video, and (3) a CD-ROM (21).

The intervention was developed using a series of materials, which were designed to help people with schizophrenia to understand what CBT is, and to see the value of CBT (22). The materials included: (1) a booklet, (2) a video, and (3) a CD-ROM (23).

The intervention was developed using a series of materials, which were designed to help people with schizophrenia to understand what CBT is, and to see the value of CBT (24). The materials included: (1) a booklet, (2) a video, and (3) a CD-ROM (25).

The intervention was developed using a series of materials, which were designed to help people with schizophrenia to understand what CBT is, and to see the value of CBT (26). The materials included: (1) a booklet, (2) a video, and (3) a CD-ROM (27).

The intervention was developed using a series of materials, which were designed to help people with schizophrenia to understand what CBT is, and to see the value of CBT (28). The materials included: (1) a booklet, (2) a video, and (3) a CD-ROM (29).

The intervention was developed using a series of materials, which were designed to help people with schizophrenia to understand what CBT is, and to see the value of CBT (30). The materials included: (1) a booklet, (2) a video, and (3) a CD-ROM (31).

The intervention was developed using a series of materials, which were designed to help people with schizophrenia to understand what CBT is, and to see the value of CBT (32). The materials included: (1) a booklet, (2) a video, and (3) a CD-ROM (33).

The intervention was developed using a series of materials, which were designed to help people with schizophrenia to understand what CBT is, and to see the value of CBT (34). The materials included: (1) a booklet, (2) a video, and (3) a CD-ROM (35).

10/31 Structure Fire Princess Dr. Greer

10/31 Structure Fire (Electrical) Locust St.

- Tyger River Station Engine 151 participated in the annual mass casualty drill at GSP Airport.
- October was Fire Prevention Month with an emphasis on safe charging practices for Lithium –ion Batteries. “Charge into Fire Safety”
- Lyman Station Supported Halloween in the village.

Shawn Harter
Deputy Chief

Lithium-Ion Battery Safety

Lithium-ion batteries supply power to many kinds of devices including smart phones, laptops, e-scooters and e-bikes, e-cigarettes, smoke alarms, toys, and even cars. If not used correctly, or if damaged, these batteries can catch on fire or explode.

The Problem

- These batteries store a large amount of energy in a small amount of space.
- Sometimes batteries are not used the right way; batteries not designed for a specific use can be dangerous.
- Like any product, a small number of these batteries are defective. They can overheat, catch fire, or explode.

Safety Tips

- Purchase and use devices that are listed by a nationally recognized testing laboratory.
- Always follow the manufacturer's instructions.
- Only use the battery that is designed for the device.
- Only use the charging cord that came with the device.
- Do not charge a device under your pillow, on your bed, or on a couch.
- Do not keep charging the device or device battery after it is fully charged.
- Keep batteries at room temperature when possible. Do not charge them at temperatures below 32°F (0°C) or above 105°F (40°C).
- Store batteries away from anything that can catch fire.

Signs of a Problem

Stop using the battery if you notice these problems: odor, change in color, too much heat, change in shape, leaking, or odd noises. If it is safe to do so, move the device away from anything that can catch fire. Call 9-1-1.

Recycle Batteries Responsibly

Don't throw lithium-ion batteries in the trash or regular recycling bins because they could start a fire. Recycle your device or battery at a safe battery recycling location. Visit call2recycle.org to find a recycling spot near you.

Charging an E-bike

Charge your battery in a flat, dry area away from children, direct sunlight, liquids, tripping hazards, and in a location where the e-bike is not at risk of falling.

November 2025 WWO

The following is a summary of the events for the month of October.

Wastewater

- Plant was in compliance for the Month of October.
- October Monthly flow was 44.49 Million gallons treated.
- County water and sewer rates are attached
- State water and sewer rates are also attached
- DHS report for this new testing with graphs are attached.
- Wastewater new permit with several changes will start January 1st. The cost of this testing will make sample testing go up about 30 thousand a year. This is a court order that was signed by Council and SJWD in 2016.

Streets Department

- Picking up leaves, grass clippings, and debris.
- Checked on Community St. sink hole. This is a water line leak we think.
- Looking at CDL driver training to get more CDI. drivers.
- CDL Application =\$15.00
- Knowledge test=\$2.00
- CDL Permit test=2.50
- CDL Class B class=\$3000.00

Collections

- Still clearing the right of ways.
- Jackson Mill Pumpstation has been approved and placed into operation.
- Boiler Tube pump station plans are at SCDOT waiting on encroachment permit to be approved. Then it will be sent to DES for the construction permit to proceed.

Laboratory

- No updates on lab

Pretreatment

We are still waiting for the new industrial permits to be approved
Sewer use ordinance will have to be updated when the permits are approved.
Maddox Transformer will be going on pretreatment. They rebuild transformers for Duke Energy.
Project 888 is Abner Solar manufacturing Solar Panels.

Project list

- **Tractor Supply – opening next Month Hwy 29 Duncan**
- **Tidal Wave Car Wash- Hwy 29 Duncan- potential noise problem for Woods at Pine Ridge**
- **Seven Eleven – Pine Ridge and Hwy 29-Duncan-Started**
- **Seven Eleven -Tucapau Road and Hwy 29-Wellford-Started**
- **Possible Taco Bell**
- **Upward- Hwy 29 Wellford**
- **Lyman Vet Hwy 292 and 129-Lyman**
- **Panera Bread Hwy 290-Duncan- Started**
- **Lot 2 -Unknown**
- **Startex Mills Loft Apartments 95 Units old Mill Site- Just started**

Grocery Center Pine Ridge and Hwy 29

- **Publix**
- **McDonalds**
- **6 out parcels available**

101 Retail Center consist of 10 in total

- **1- Retail Center**
- **2 Outparcel Buildings**
- **7 Industrial Buildings**
- **Potential new building going in between Walmart and Ryobi.**
- **New subdivision going in behind Startex old Mill 56 single family homes-Started**
- **Sheridan Town Homes – Wellford 40 homes ready to build.**
- **More are coming.**

Wastewater Surveillance Report

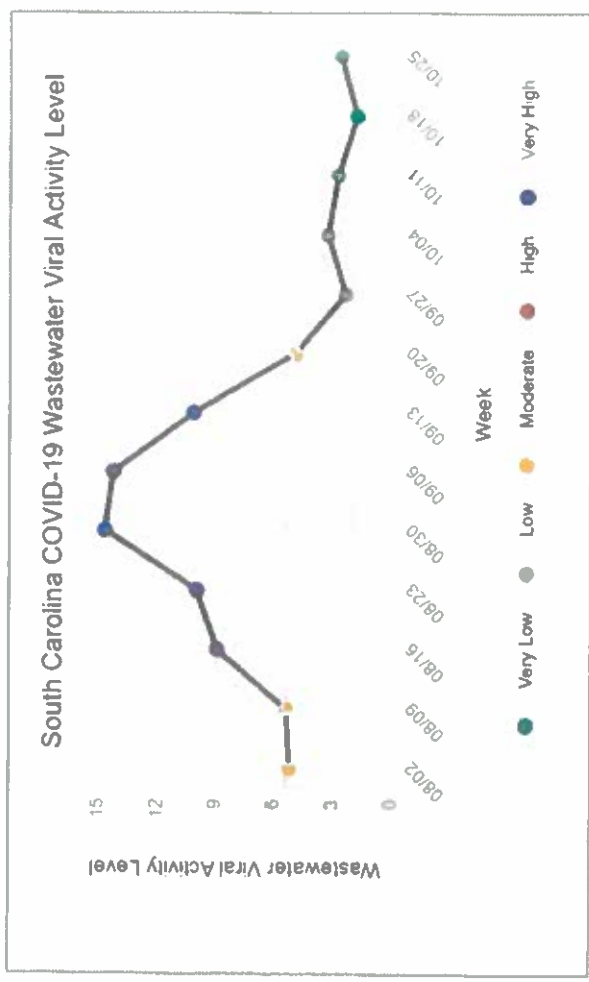

October 1, 2025, through October 31, 2025

Purpose: Provide high-level wastewater surveillance monitoring results for Town of Lyman WWTP
All data are preliminary and subject to change.

About the Data

Graph 1: This graph shows the Wastewater Viral Activity Level (WVAL) for COVID-19, Influenza A and RSV across South Carolina over a two- to three-month period. The WVAL indicates viral activity in wastewater relative to historical baseline levels, where higher values suggest increased virus presence in the community. The measure is calculated through a complex analysis of the raw data to determine how many standard deviations each sample is from what is historically typical. Values are categorized as Very Low, Low, Moderate, High or Very High with pathogen-specific thresholds:

COVID-19: Very Low (≤ 2), Low (2-3.4), Moderate (3.4-5.3), High (5.3-7.8), Very High (> 7.8)

Influenza A: Very Low (≤ 2.7), Low (2.7-6.2), Moderate (6.2-11.2), High (11.2-17.6), Very High (> 17.6)

RSV: Very Low (≤ 2.5), Low (2.5-5.2), Moderate (5.2-8), High (8-11), Very High (> 11)

The dashed lines on each graph represent these pathogen-specific category thresholds. Each point represents the median WVAL across all participating wastewater treatment plants in South Carolina for that week. The median WVAL is used because it provides a more stable and representative measure of viral activity across treatment plants, being less influenced by extreme values that might occur at individual facilities.

Graph 2: This graph highlights the levels of the virus that causes COVID-19, Influenza A and RSV detected at the utility during the specified time period. Individual data points represent measured concentrations normalized for flow and population, while a smoothed trend line illustrates the overall trajectory of these same concentration values. The colored blocks along the bottom indicate trend classifications, with sustained trends (sustained increase/sustained decrease) calculated using 28-day periods and shorter-term trends (increase/decrease/plateau) calculated using 21-day periods for sites submitting once a week. Due to the differences in typical concentration levels between these viruses – with SARS-CoV-2 typically present at much higher levels than Influenza A and RSV – a dynamic scale is used for each pathogen. This scaling approach ensures that meaningful patterns can be observed for all three viruses, as using a single fixed scale would make it difficult to visualize the typically lower concentrations of Influenza A and RSV.

Graph 3: This graph displays emergency department visits for three respiratory viruses - COVID-19, Influenza, and RSV - across South Carolina. A dynamic scale is used for each pathogen.

The data presented in these graphs should be interpreted as one component of a comprehensive disease surveillance approach. Wastewater surveillance data, emergency department visits, and other indicators work together to provide public health officials with a more complete understanding of disease activity in communities. No single data source is used in isolation to assess disease burden or make public health decisions.

Planning and Zoning Department

November 2025 Planning & Zoning Report

Summary Notes for Council

The summary below includes all Department updates and applications received in October 2025.

Boards and Commission Update:

- The Board of Zoning Appeals did not meet in October.
- Planning Commission met in October to review a rezoning request. They voted to deny the request with a vote of 3-0 stating concerns over the requested zoning district.
- Yearly Annual Training has been rescheduled and will be held on November 18th at 5:30 pm.

Subdivision Update:

- The Pacific Place Townes Final plat has been approved.

Zoning and Code Enforcement Update:

*By the Lyman Town Council
A Proclamation*

Declaring November 20, 2025, as World Pancreatic Cancer Day in the Town of Lyman.

WHEREAS in 2025, an estimated 67,440 people will be diagnosed with pancreatic cancer in the United States, and 51,980 will die from the disease;

WHEREAS pancreatic cancer is one of the deadliest cancers, it is currently the third leading cause of cancer death in the United States, and is projected to become the second leading cause around 2030;

WHEREAS pancreatic cancer is the only major cancer with a five-year relative survival rate at just 13 percent;

WHEREAS when symptoms of pancreatic cancer present themselves, it is generally in later stages, and 90 percent of pancreatic cancer patients die within the first five years;

WHEREAS approximately 820 deaths will occur in South Carolina in 2025;

WHEREAS pancreatic cancer is the seventh most common cause of cancer-related death across the world;

WHEREAS there were an estimated 510,992 new pancreatic cancer cases diagnosed worldwide in 2022;

WHEREAS the good health and well-being of the residents of Lyman are enhanced as a direct result of increased awareness about the symptoms and risks of pancreatic cancer, and research into early detection, causes, and effective treatments; therefore, be it

RESOLVED that I, David Petty, Mayor of the Town of Lyman, proclaim November 20, 2025, as World Pancreatic Cancer Day in the Town of Lyman.

The Seal of the Town of Lyman is to be affixed this 10th day of November, 2025.

David Petty, Mayor

Town of Lyman Proclamation

RESOLUTION

Declaring November 20 as World Pancreatic Cancer Day in the Town of Lyman.

7 STEPS TO REDUCE YOUR RISK FOR PANCREATIC CANCER

PANCREATIC
CANCER
ACTION
NETWORK

1 Know the Symptoms

Symptoms include abdominal pain, back pain, nausea, poor appetite, weight loss, stool changes, diabetes and yellowing of skin/eyes (jaundice).

2 Make Healthy Food Choices

Eat fruits and vegetables at every meal. These foods have vitamins and minerals that can help to reduce your risk for cancer.

3 Get Moving

Regular physical activity improves your body's ability to fight off illness. It also reduces your risk for pancreatic and other cancers.

4 Limit Alcohol

Drinking a lot of alcohol may increase your risk for pancreatic cancer. Occasional drinks are fine.

5 Don't Use Tobacco Products

Cigarettes, cigars and chewing tobacco increase your risk for pancreatic cancer.

6 Be Mindful of Your Weight

If you are overweight, work on shedding some of those extra pounds. Even losing a small amount of excess weight can benefit your health.

7 Learn Your Family History and Get an Annual Check-up

Tell your healthcare provider about your family history. Ask about steps to take to reduce your risk.

| c. Planning Commission Meeting: | October 28 th , 2025 |

Background Information:

Boiler Tube Company of America (“Boilertube”) owns the property located at 506 Charlotte Highway and is requesting a rezoning from GI – General Industrial District to FRD – Flexible Review District to allow for the expansion of their existing industrial facility and to accommodate continued business growth.

Boilertube is a longstanding industrial partner in the Lyman community, operating from this approximately 19-acre parcel for more than 20 years. The company has consistently contributed to the Town’s economic and infrastructure development, including the installation of a pump station along Charlotte Highway that benefits the broader Lyman utility system.

The property occupies a unique location at the corner of Charlotte Highway and Wellford Road, with portions of the parcel situated in both the Town of Lyman and the City of Wellford. The principal building and operations are located within the Lyman jurisdictional boundary. The site is further constrained by two large, approximately 200-foot-wide rights-of-way abutting both the front and rear of the property, resulting in limited buildable area under the current zoning district standards.

Proposed Project and Public Benefit:

The proposed building expansion will enable Boilertube to modernize its operations and expand local employment opportunities, while also supporting public infrastructure improvements within the Town's service area.

In February 2025, Town Council approved a Resolution (adopted February 10, 2025) authorizing the Town of Lyman to partner with Boilertube on a major sewer infrastructure expansion project in conjunction with this development. Under the approved cost-sharing agreement, the Town will contribute 40% of the project cost and Boilertube will fund 60%.

This partnership represents a strategic investment in expanding the Town's sewer service capacity along Charlotte Highway, which will allow for future connection opportunities for area residents and nearby properties that currently lack access to municipal sewer. The proposed infrastructure improvements will provide long-term community benefit beyond the Boilertube facility itself.

Surrounding Land Uses:

- North – R-15, Single Family Low Density Residential District
- West – NBD, Neighborhood Business District
- East – City of Wellford
- South – R-15, Single Family Low Density Residential District

Zoning Ordinance Regulations:

413.1 Purpose.

The intent of this district is to provide design and use flexibility to allow development and redevelopment of properties that are compatible with the existing character of the area as set forth by the Town's comprehensive plan. Specifically, the FRD enables the tools required to encourage exceptional planning and design in order to preserve the character of existing buildings, open spaces, streetscapes, and use clusters of unique areas of the town; and protect critical environmental resources through a greater efficiency in the layout of roads, utilities and other infrastructure.

Staff Analysis and Recommendation(s):

The Comprehensive Plan and Future Land Use Map identify this area as the Gateway Character Area.

Future Land Use Recommendations for Gateway Character Area: Light Industrial.

Light Industrial. A district intended for uses associated with Light Industrial operations and Business Parks. A design review component should be included to ensure compatibility between new development and existing community character. Adjoining properties should be protected from excessive noise, odor, objectionable views and unrestricted vehicular circulation.

Staff Analysis:

The requested rezoning to FRD (Flexible Review District) is appropriate given the unique configuration of the parcel, the existing industrial use, and the public benefit associated with the sewer infrastructure expansion. The FRD district provides flexibility for innovative site design, while allowing for coordinated review to ensure compliance with Town standards and community objectives. In addition, the FRD District would allow the property to more easily navigate any problems they may face by being within two adjacent municipalities with different guidelines and restrictions.

Town Staff finds that the proposed rezoning is consistent with the Town's Comprehensive Plan goals of supporting economic development and infrastructure investment, particularly along major transportation corridors such as Charlotte Highway.

Recommendation:

Staff recommends approval of the rezoning request from GI to FRD.

Planning Commission recommended to deny the request with a vote of 3-0, stating concerns that the requested zoning district does not suit the property.

Boiler Tube of America Statement of Intent

Date: October 3, 2025

1. Project Overview

The proposed project is located on a 19.8-acre parcel situated at 506 Charlotte Highway within the Town of Lyman, SC. The site will be occupied by **Boiler Tube Company of America (BTA)**, a nationally recognized manufacturer specializing in replacement pressure boiler components and auxiliary parts for a wide range of industrial boilers.

BTA serves customers in the power generation sector as well as pulp and paper, petrochemical, oil and gas, and other process industries. The company is distinguished by its **ASME-certified boiler fabrication facility** in Lyman, SC, and a specialty tubing shop in Wellford, SC. With a large on-hand inventory of boiler tubing, BTA is positioned to provide both emergency and routine service, delivering rapid turnaround and long-term operational support.

2. Permitted Uses (Zoning Compliance)

The parcel is located within the **Flexible Review District (FRD)** zoning classification. The proposed use is consistent with the intent of the district, which is designed to accommodate a variety of commercial, research, and light-to-moderate industrial uses that can be reviewed for compatibility with surrounding land uses.

- Industrial uses involving manufacturing, processing, assembly, and storage of heavy materials and equipment, provided such uses do not generate noxious noise, vibration, smoke, fumes, or other hazards.
- Repair shops, equipment servicing, and incidental storage operations, subject to applicable yard and screening standards.
- Outdoor storage and sales uses on parcels of at least one acre, subject to fire protection and screening requirements.

Prohibited uses such as sexually oriented businesses, cellular towers, and overnight parking are not proposed for this site.

3. Parking Requirements

- Zoning Standard: **1 space per 500 sq. ft. of gross floor area.**
 - Parking will be designed to meet or exceed this requirement.
 - Landscaped islands will be incorporated to comply with the **minimum 10% landscaped open space requirement** for lots with 20 or more spaces.
-

4. Dimensional Standards

The proposed development will conform to the dimensional standards established within the FRD District and as conditioned through site plan review:

- **Front Setback:** 15 ft (Charlotte Hwy);
25 ft (Wellford Rd, Main St, Lucille Dr)
 - **Side Setback:** 25 ft
 - **Rear Setback:** 25 ft
 - **Maximum Building Height:** 35 ft
-

5. Bufferyards & Landscaping

The project will provide bufferyards in accordance with **Article IV, Table 3 – Bufferyard Requirements** based on the zoning/use of adjacent properties. Landscaping will be incorporated to minimize potential conflicts between adjacent land uses.

- Bufferyards will be established along property boundaries as required.
 - Parking lots containing more than 20 spaces will include landscaped islands and barriers to break up impervious areas.
-

6. Outdoor Lighting Plan

All outdoor lighting will comply with **Section 508** standards to minimize glare, light pollution, and off-site impacts:

- **Property Line Standards:** Maximum of 0.5 foot-candles at residential property lines; maximum of 2.0 foot-candles at road rights-of-way or non-residential property lines.
- **Flood Lighting:** Fixtures aimed downward $\geq 45^\circ$ below horizontal, shielded from roadway and residential view.
- **Wall Packs & Sign Lighting:** IESNA full cutoff fixtures; max 175 watts for external lighting fixtures.
- **Parking Lots:** Cutoff fixtures, max 25 ft mounting height, lighting not to exceed 20 foot-candles.

7. Conclusion

The proposed BTA facility is consistent with the permitted uses, dimensional requirements, landscaping provisions, parking standards, and lighting regulations of the **Flexible Review District (FRD)**. The project will provide a high-quality industrial development that supports local economic growth while maintaining compatibility with surrounding land uses.

the 1990s, the number of people with a diagnosis of schizophrenia has increased in many countries (1).

There is a growing awareness of the need to improve the quality of life of people with schizophrenia. This has led to a focus on the development of psychosocial interventions that can help to reduce the symptoms and improve the functioning of people with schizophrenia (2).

One of the most common psychosocial interventions is cognitive behavioural therapy (CBT). CBT is a form of therapy that helps people to change their thoughts and behaviours. It is based on the idea that our thoughts, feelings and behaviours are all interconnected and can influence each other.

CBT has been shown to be effective in helping people with schizophrenia to manage their symptoms and improve their functioning. It can help to reduce the severity of symptoms such as hallucinations and delusions, and can help to improve social skills and the ability to manage everyday life.

There are a number of reasons why CBT might be effective in helping people with schizophrenia. One reason is that it helps to challenge and change negative thoughts and beliefs. This can help to reduce the impact of symptoms and improve the person's overall outlook on life.

Another reason why CBT might be effective is that it helps to develop coping strategies. This can help people to manage their symptoms and deal with the challenges of everyday life. CBT can also help to improve social skills and the ability to form and maintain relationships.

There are a number of different CBT techniques that can be used to help people with schizophrenia. These include cognitive restructuring, exposure therapy, and behavioural activation. Each of these techniques has been shown to be effective in helping people with schizophrenia to manage their symptoms and improve their functioning.

STATE OF SOUTH CAROLINA
COUNTY OF SPARTANBURG
TOWN OF LYMAN

ORDINANCE NO. 11102025 ____

**AN ORDINANCE TO DESIGNATE VERNON STREET AS A
RIGHT-TURN-ONLY EXIT ONTO U.S. HIGHWAY 29 DURING SPECIFIED
HOURS**

WHEREAS, the Town of Lyman has the authority under South Carolina law and its municipal police powers to regulate traffic on public streets within the Town limits for the safety and welfare of its citizens;

WHEREAS, Vernon Street is a Town-maintained roadway intersecting with U.S. Highway 29 (Wade Hampton Boulevard), a state highway under the jurisdiction of the South Carolina Department of Transportation (SCDOT);

WHEREAS, the Town has determined that restricting left turns from Vernon Street onto U.S. Highway 29 during designated peak traffic periods will improve vehicular safety, reduce congestion, and facilitate the efficient flow of traffic at that intersection;

WHEREAS, the Town will coordinate with SCDOT and provide proper signage and public notice prior to enforcement of the right-turn-only restriction;

**NOW, THEREFORE, BE IT ORDAINED BY THE MAYOR AND
COUNCIL OF THE TOWN OF LYMAN, SOUTH CAROLINA, IN COUNCIL
DULY ASSEMBLED:**

- 1. Right Turn Only Designation.** Vernon Street shall be designated as a right-turn-only exit onto U.S. Highway 29 (Wade Hampton Boulevard) during the hours of 7:00 a.m. to 9:00 a.m. and 4:00 p.m. to 6:00 p.m., seven (7) days per week.
- 2. Signage and Notice.** Town staff shall coordinate with the South Carolina Department of Transportation to install and maintain appropriate regulatory signage at the intersection of Vernon Street and U.S. Highway 29, indicating “Right Turn Only” and the applicable time restrictions. The Town Administrator is authorized to take all administrative steps necessary to implement this Ordinance, including public notification.

3. Enforcement. The Lyman Police Department is authorized to enforce this right-turn-only restriction in accordance with applicable state and local laws. Violations shall be subject to penalties as provided by the Town’s Code of Ordinances and state law.

4. Severability. If any provision of this Ordinance is held invalid or unconstitutional by a court of competent jurisdiction, such ruling shall not affect the remaining provisions, which shall remain in full force and effect.

5. Effective Date. This Ordinance shall take effect upon final reading and approval by Town Council, and upon installation of appropriate signage as required herein.

DONE AND RATIFIED this ____ day of _____, 2025, by the Mayor and Council of the Town of Lyman, South Carolina.

David Petty, Mayor

Right Turn only exiting Vernon St to US 29 during the hours of 7-9 am and 4-6 pm 7 days per week

the 1990s, the number of people in the UK who are aged 65 and over has increased from 10.5 million to 13.5 million (13.5% of the population).

There are a number of reasons why the number of people aged 65 and over has increased. One of the main reasons is that people are living longer. The life expectancy at birth in the UK is now 78 years for men and 82 years for women. This is a significant increase from the 1950s, when life expectancy at birth was 71 years for men and 76 years for women.

Another reason why the number of people aged 65 and over has increased is that people are having children later in life. This means that there are more people aged 65 and over who have children who are still alive. This is a significant increase from the 1950s, when people were having children earlier in life.

There are a number of reasons why people are living longer. One of the main reasons is that people are eating better. They are eating more fruits and vegetables, and less fat and sugar. This has led to a decrease in the number of people who are obese, and a decrease in the number of people who have heart disease and other chronic conditions.

Another reason why people are living longer is that they are getting more exercise. They are walking more, and doing more physical activity. This has led to a decrease in the number of people who are sedentary, and a decrease in the number of people who have heart disease and other chronic conditions.

There are a number of reasons why people are having children later in life. One of the main reasons is that people are getting married later. They are waiting until they are in their late 20s or early 30s before getting married. This means that they are having children later in life.

Another reason why people are having children later in life is that they are having children with their partners. This means that they are having children later in life. This is a significant increase from the 1950s, when people were having children with their partners earlier in life.

There are a number of reasons why people are having children later in life. One of the main reasons is that people are having children with their partners.
